

2 - RHOMBI

1914: The German army goes across the river Meuse in Saint-Mihiel and occupies the barracks in Chauvencourt.

1992: Planting a cherry-plum tree on the site of the barracks showers, a piece of tile is found.

Using four rhombi of each colour, recreate the pattern of a hexagon of this tiling.
Using the remaining rhombi of each colour, carry on recreating the pattern of the tiling.
